

Take EBSCO With You Everywhere You Go

For many years EBSCO has offered a dedicated mobile site for EBSCOhost®. EBSCOhost Mobile allows users to search EBSCO's leading research databases anytime and anywhere—delivering the most important EBSCOhost features right in the palm of your hand.

Now, EBSCO is introducing apps that are specifically designed to take advantage of EBSCO's powerful search functionality on the most popular smartphones, including iPhones® and Droids™.

The new EBSCOhost iPhone app provides new features, including the ability to view content in visual landscape mode and the option to save articles and PDF full-text content on the device for offline viewing.

Options for Mobile Access:

- EBSCOhost Mobile
- EBSCOhost App for iPhone® and iPod touch®
- DynaMed™ Mobile Access including iPad Apps

Coming Soon:

- *Business Book Summaries*® App for iPhone® and iPod touch®
- *Nursing Reference Center*™ App for iPhone® and iPod touch®
- iPad-specific optimization for EBSCOhost
- EBSCOhost App for Android™

"EBSCOhost Mobile is currently leading the effort to provide smart phone access to scholarly information."

CHARLESTON ADVISOR,
OCTOBER 2010

EBSCOhost Mobile is available on most popular smartphones and portable devices, including:

iPhone iPad iPod touch BlackBerry Android Windows Dell Axium Palms Pocket PC

EBSCOhost iPhone App

EBSCO offers an app for accessing EBSCOhost from your iPhone and iPod Touch devices.

The EBSCOhost app is available for download from the iTunes app store.

After downloading the EBSCOhost app, it must be authenticated from within an EBSCOhost profile.

To authenticate the EBSCOhost app:

1. Click the EBSCOhost iPhone/iPod Touch Application link at the bottom of the page and enter your email address.

An email with an authentication key is sent to you.

2. Access the email from your device and click the link found in the email to authenticate the application.

You have 24 hours to access the key from your device to authenticate the app. If the key is not used within 24 hours, it expires and you will need a new key.

Notes:

- Once it is authenticated, the app can be used for nine months, after which you must send yourself a new authentication key from the EBSCOhost interface.
- The app is authenticated to the profile from which you emailed yourself the authentication key. To access a different profile from the app, click the EBSCOhost iPhone/iPod Touch Application link from within the new profile and complete the authentication steps.

Questions?

Visit http://support.ebsco.com/downloads/iphone_help/ehostapp/toc.html or send an email to support@ebsco.com.

To access EBSCOhost Mobile from your smartphone:

The following URLs for EBSCOhost Mobile will bring you to a Select Service page, from which you can choose the EBSCOhost Mobile profile:

<http://m.ebscohost.com/>

<http://search.ebscohost.mobi/>

If you are not authenticating through your institution's proxy, an EBSCO user ID and password are required to log into EBSCOhost Mobile from your Smartphone. If you need login credentials, see your institution's administrator.

Your device must have javascript enabled in order to use EBSCOhost Mobile. BlackBerry users can refer to the following link for information on enabling javascript: http://www.ehow.com/how_4965723_enable-javascript-blackberry.html
